Subject: Colt Refining Export Reporting

Dear Mr. Nelson;

I had received a call from James Kent of your office on Monday, May 5th in regards to Export Reporting requirements for Colt Refining, Inc. located in Merrimack NH. Mr. Kent had reached out to Colt because we had not yet submitted the annual Export Report for calendar year 2014. I was a little confused by this because Colt Refining did not export any Hazardous Waste materials outside the Continental United States in 2014 or the preceding years. Mr Kent did not have any information for me in regards to what types or volumes of wastes that was on file, all he could tell me was that Colt had inquired about exportation. I asked if there was any confusion and if this was in reference to importing because Colt did have a client in 2014 from Costa Rica who shipped us hazardous waste for gold reclamation, he confirmed the reason for the call was for exporting. All information regards to the import of materials from our client was forwarded to Susann Nachmann, USEPA Region 1.

Where Colt did not export, Mr. Kent had asked me to provide you this letter stating that Colt did not export in calendar year 2014 and that this would close out any need for further reporting.

Should you have any questions or require additional information, please do not hesitate to contact me so I can expeditiously provide you further information.

Should you wish to further discuss I can be reached at (603) 429-9966 or ssnyder@coltrefining.com.

Respectfully,

A handwritten signature in black ink, appearing to read 'S. Snyder', followed by a horizontal line.
